Problem Solving Essentials in Endodontics

Friday, October 3, 2025 | 8:30 AM-3:30 PM CT

Holiday Inn

3903 State St Bismarck, ND 58501

Cost: \$99

Kerr provides all course materials.

This presentation will focus on endodontic troubleshooting modalities for the general dentists in their day-to-day practice. A simplified approach from endodontic diagnosis to the clinical essentials of access preparation, cleaning & shaping and obturation procedures will be addressed. Participants will learn advanced NiTi rotary-reciprocation instrumentation, predictable irrigation protocols using Apical Negative Pressure, and warm vertical obturation using the Continuous Wave Technique. Other topics will include endodontic-periodontal differential diagnosis and treatment plan, prevention of coronal and root perforations, locating MB2 canals, negotiating calcified & curve canals and understanding apical gauging. This exciting multi-media program highlights solutions and suggestions on how to treat straightforward and complex endodontic cases. This hands-on workshop utilizes 3D printed teeth and is designed to enhance the clinician's practical skills.

Learning Objectives:

- Learn troubleshooting tips for apex locators
- Assess protocols in creation of a glide path
- Learn simplified gutta percha fitting protocol
- Learn bioceramic sealer-based single-cone technique

Presented by: Dr. Bernice Ko

Dr. Bernice Ko received her DDS and her postgraduate training in Hospital Dentistry and Endodontics at UCLA. Dr. Ko is a Diplomate of the American Board of Endodontics and is the Assistant Director of the UCLA AEGD (Advanced Education in General Dentistry). She was a Clinical Educator with the Section of Endodontics, Special Patient Care and AEGD at UCLA. Dr. Ko was the former Director of the UCLA Postdoctoral Endodontics Program and was the Course Director of the UCLA Endodontic Continuum Lecture and Hands-on Workshop. Dr. Ko is a paid consultant for Kerr. The opinions expressed in this course are those of Dr. Ko. Kerr is a medical device manufacturer and does not dispense medical advice. Clinicians should use their own professional judgment in treating their patients.
